Sir:

In response to the outstanding Office Action dated July 6, 2000 (paper number 12), please consider the following remarks:

IN THE CLAIMS

1. (Twice Amended) A computing system architecture comprising:  
a data source for providing data through an interconnect fabric;  
a stateless human interface device coupled to said interconnect fabric for  
receiving and rendering said data, wherein said data source is configured to  
maintain an active session associated with a user when said user is disconnected  
from said stateless human interface device.
